Profile Summary

MERN Stack Developer with 2+ years of professional experience building responsive web applications using React.js, JavaScript (ES6+), Node.js, Express.js, MongoDB, and REST APIs. Experienced in reusable React components, dashboards, role-based interfaces, authentication, authorization, and interactive workflows. Skilled in Redux Toolkit, React Router, Tailwind CSS, Material UI, Bootstrap, Framer Motion, Firebase, and API integration. Working knowledge of Mongoose, MSSQL, Git, Jenkins, CI/CD, and Agile. Currently an Associate Software Engineer at Pirnav Software Solutions, contributing to KiniEduHub, an EdTech platform supporting Student, Mentor, Organization, and Admin modules. Experienced in courses, assessments, live classes, attendance, permissions, AI Career Coach, and learning workflows. Seeking MERN Stack, Full Stack, React.js, or Frontend Developer opportunities

Work Experience

ssociate Software Engineer

Pirnav Software Solutions Pvt . Ltd .

04/2024 - Present

Develop and maintain responsive web applications using React.js and JavaScript (ES6+). Build reusable and modular React components, dashboards, and role-based interfaces for Student, Mentor, Organization, and Admin workflows. Integrate REST APIs, manage application state using Redux Toolkit, and implement authentication, authorization, and permission-based UI behavior. Develop workflows for courses, assessments, live classes, attendance, and

permission management. Build responsive interfaces using Tailwind CSS, Material UI, and Bootstrap, with interactive experiences using Framer Motion. Debug API integration issues, runtime errors, permission-related issues, and data-rendering problems. Work with backend API data and improve component reusability, UI consistency, responsiveness, and application maintainability
