NARENDRA KADIVETI

MERN Stack Developer | React.js | Node.js | Express.js | MongoDB

Hyderabad, India | +91 6300044926 | kadivetinarendra2104@gmail.com | linkedin.com/in/narendra21 | github.com/NARENDR-248

PROFESSIONAL SUMMARY

Software developer with 1.6 years of professional experience building responsive, user-focused web applications with React.js and JavaScript (ES6+), and working knowledge of the MERN stack. Experienced in developing reusable components, dashboards, and role-based interfaces, integrating REST APIs, handling API responses and application state with Redux Toolkit, and implementing authentication and authorization. Familiar with Node.js, Express.js, MongoDB, and Mongoose, with interest in full-stack development. Contributed to KiniEduHub, an education technology platform with Student, Mentor, Organization, and Admin workflows.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Python, HTML5, CSS3
Frontend:	React.js, React Router, Redux Toolkit
Backend:	Node.js, Express.js
Database:	MongoDB, Mongoose, MSSQL
UI & Styling:	Tailwind CSS, Material UI, Bootstrap
Animation:	Framer Motion, AOS, React Icons
APIs & Integration:	REST APIs, Firebase, ServiceNow
Tools & DevOps:	Git, Jenkins, CI/CD, Agile

PROFESSIONAL EXPERIENCE

Associate Software Engineer Apr 22, 2026 – Present

Pirnav Software Solutions Pvt. Ltd. | Hyderabad / Remote

Project: KiniEdxHub / — education technology platform with Student, Mentor, Organization, and Admin modules.

- Develop and maintain responsive web applications using React.js and JavaScript (ES6+).
- Build reusable, modular React components used across multiple application modules.
- Develop dashboards and interfaces for Student, Mentor, Organization, and Admin workflows.
- Integrate React applications with REST APIs and handle API responses and application state.
- Manage application state with Redux Toolkit and routing with React Router.
- Implement authentication, authorization, and role-based and permission-based UI behavior.
- Develop workflows for courses, assessments, live classes, attendance, and permission management.
- Build responsive interfaces with Tailwind CSS, Material UI, and Bootstrap.
- Implement interactive UI experiences and animations with Framer Motion.
- Debug API integration issues, runtime errors, permission-related issues, and data-rendering problems.
- Work with real backend API data and troubleshoot frontend-to-backend integration issues.
- Improve component reusability, UI consistency, responsiveness, and application maintainability.

PROJECTS

KiniEduHub / Pirnav Edutech

Education technology platform serving Student, Mentor, Organization, and Admin users.

Modules: Dashboards, Courses, Assessments, Live Classes, Attendance, Permission Management, AI Career Coach, Student Journey / Learning Workflows.

Technologies: React.js, JavaScript, Redux Toolkit, React Router, Tailwind CSS, Material UI, Bootstrap, Framer Motion, REST APIs, Firebase.

ADDITIONAL PROJECTS

- **Swiggy Clone** — React.js, JavaScript
- **Food Recipe Application** — React.js, JavaScript
- **Music Player Application** — React.js, JavaScript
- **To-Do Application** — React.js, JavaScript
