Developer Resource Stack

1. Product Discovery & Startup Research

Use before building.

- CB Insights — Startup ideas and market research https://www.cbinsights.com/research/unique-startups/
- Google Trends — Demand validation https://trends.google.com/trends/explore
- Starter Story — Startup ideas and execution examples https://www.starterstory.com/ideas
- Idea Picker — Idea validation https://ideapicker.io
- MicroSaaS Ideas https://microsaasidea.com
- Reddit Side Projects https://www.reddit.com/r/SideProject/top/?t=week

---

2. Product Planning & Documentation

Use before coding.

- Roadmap.sh https://roadmap.sh/
- QuickRef https://quickref.me/
- Product Folks https://theproductfolks.com/learn-product-management-resources
- Product Monk https://www.productmonk.io
- Google PM AI prompts https://workspace.google.com/resources/ai/prompts-for-project-management
- Best Pitch Deck https://bestpitchdeck.com

---

3. UI/UX Inspiration

- Mercury (header inspiration) https://mercury.com/
- Designspiration https://www.designspiration.com/explore/

- Logobook https://logobook.com/
- LogoSystem https://logosystem.co/symbol
- Toolfolio https://toolfolio.io/
- Codrops https://tympanus.net/codrops/hub/all/
- Lundev https://www.lundevweb.com/
- CodePen https://codepen.io/

---

4. Frontend Components & Animation

Components

- React Bits https://www.reactbits.dev/
- UI Beats https://www.uibeats.com/
- KokonutUI https://kokonutui.com/
- Inspira UI https://inspira-ui.com/docs/
- 21st.dev http://21st.dev/

Animation

- Animata https://animata.design/
- Vanta JS https://vantajs.com
- Particles JS https://vincentgarreau.com/particles.js/
- Matter JS https://brm.io/matter-js/
- Cobe Globe https://cobe.vercel.app

---

5. AI Development Stack

LLM & Agent Building

- Awesome LLM Apps https://github.com/Shubhamsaboo/awesome-llm-apps

- SmolAgents https://github.com/huggingface/smolagents
- Composio https://composio.dev
- OpenAlternative https://openalternative.co/self-hosted
- Agent Skills Directory https://skills.sh
- General Agents https://generalagents.com/ace/
- Sabrina Agents https://agents.sabrina.dev/
- Relevance AI https://relevanceai.com
- Pinokio https://pinokio.co/

---

6. Prompt Engineering

- Aura Prompt Guide https://aura.build/learn/tips-for-prompting
- PromptLayer https://dashboard.promptlayer.com
- Prompt Collection https://github.com/x1xhlol/system-prompts-and-models-of-ai-tools
- Prompt Design https://parahelp.com/blog/prompt-design

---

7. Automation & Backend

- n8n Templates https://github.com/enescingoz/awesome-n8n-templates
- Zapier + ChatGPT https://zapier.com/apps/chatgpt/integrations
- Looker Studio Templates https://lookerstudio.google.com/

---

8. GitHub AI Projects

- Hunyuan Video Avatar https://github.com/Tencent-Hunyuan/HunyuanVideo-Avatar
- Hunyuan A13B https://github.com/Tencent-Hunyuan/Hunyuan-A13B

- Lovable Prompts https://github.com/x1xhlol/system-prompts-and-models-of-ai-tools/tree/main/Lovable

- Prompt Collections https://github.com/VoloBuilds/prompts

---

9. Learning & Career

- Coursera AI Agents https://coursera.org/specializations/ai-agents

- Coursera Generative AI for Developers https://coursera.org/specializations/generative-ai-for-software-developers

- AI Engineering Newsletter https://aiengineering.beehiiv.com

- Speak & Improve https://speakandimprove.com

10. Recommended Stack For Your Projects (maya / StayLynk / SaveMyBill)

Frontend:

- Next.js
- TypeScript
- Tailwind CSS
- shadcn/ui
- ReactBits
- Framer Motion

Backend:

- Node.js
- Drizzle ORM
- PostgreSQL

AI:

- Gemini
- SmolAgents
- Composio
- n8n

Deployment:

- Vercel
