UdayKiran Karnam

.NET Backend Developer

+91 6281765898 udayjustuday1234@gmail.com Hyderabad, India

PROFESSIONAL SUMMARY

.NET Backend Developer with 2+ years of experience building RESTful APIs and backend services with **C#, ASP.NET Core, Entity Framework Core, and Microsoft SQL Server**. Experienced in role- and permission-based access control, API design, validation and error handling, and frontend integration for a multi-role education technology platform.

TECHNICAL SKILLS

Backend	C#, .NET, ASP.NET Core, Web API, REST APIs, Entity Framework Core, LINQ
Database	Microsoft SQL Server, SQL, Stored Procedures, Joins, Query Optimization
Architecture	MVC, RESTful Architecture, Layered Architecture, Repository Pattern, Dependency Injection
Security	Authentication, Authorization, RBAC, Permission-Based Access Control
Tools	Visual Studio, Swagger/OpenAPI, Postman, Git, GitHub
Frontend	React.js, JavaScript, HTML5, CSS3, Tailwind CSS

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Apr 21, 2024 – Present

Pirnav Software Solutions Pvt. Ltd. | Hyderabad / Remote

Project: KiniEduHub / Pirnav Edutech — Education technology platform with Student, Mentor, Organization, and Admin modules.

- Develop and maintain scalable backend services and RESTful APIs using **C#, ASP.NET Core, and .NET**.
- Design and implement modular API architecture for Student, Mentor, Organization, and Admin workflows.
- Develop and integrate REST APIs for **courses, assessments, live classes, attendance, permissions, user management, and dashboards**.
- Implement business logic, validation, exception handling, and API response management using **ASP.NET Core**.
- Work with **Microsoft SQL Server** to design queries, manage relational data, and implement database-driven application features.
- Develop database operations using **Entity Framework Core** and optimize queries for application performance.
- Implement **authentication and authorization** using role-based and permission-based access control.
- Develop APIs supporting different user roles including **Student, Mentor, Organization, Admin, and Employee**.
- Implement permission management APIs and enforce module-level access based on user roles and assigned permissions.
- Integrate backend APIs with frontend applications and troubleshoot **frontend-to-backend integration issues**.
- Develop backend workflows for **course management, assessments, live classes, attendance tracking, employee management, and student journeys**.
- Implement API endpoints for creating, retrieving, updating, and deleting application data.
- Handle API validation, HTTP status codes, error responses, and exception scenarios.
- Debug and resolve **API errors, authorization issues, data inconsistencies, SQL issues, and integration problems**.

- Test and validate APIs using **Swagger/OpenAPI** and troubleshoot API behavior across different user roles.
- Work with real application data and coordinate API requirements with frontend development workflows.
- Maintain clean, reusable, and scalable backend code following **.NET development best practices**.

KiniEduHub / Pirnav Edutech

Education technology platform serving **Student, Mentor, Organization, and Admin** users.

Key Modules	Dashboards, User Management, Courses, Assessments, Live Classes, Attendance, Employee Management, Permission Management, AI Career Coach, Student Journey, and Learning Workflows.
Technologies	C#, .NET, ASP.NET Core Web API, Entity Framework Core, REST APIs, Microsoft SQL Server, LINQ, Swagger/OpenAPI, Authentication & Authorization, Role-Based Access Control (RBAC), Permission Management, Git

ACADEMIC PROJECT

College Student Leave Management System Web Application

Internet-based application that automates the workflow of student leave applications and approvals, with email notifications, periodic leave crediting, and report generation, replacing paper-based record maintenance.

- **Students:** log in, submit leave applications with type, duration, and reason, and cancel pending requests.
- **Counsellor:** view pending requests on a dashboard, approve or reject with comments, and update leave status to notify students.
- **Head of Department:** view all leave records, search and filter by student, date, and leave type, and generate reports on leave statistics and trends.
